

Utilities Getting Connected

→ Electricity

13 24 61

Connect Online at www.originenergy.com.au

The building has an embedded network for electricity through Origin Energy. To connect your electricity, register online and provide your details for accounts & billing. Electricity is individually metered to your apartment.

By connecting your electricity with Origin, you will receive competitive rates.

→ Gas / Hot Water

13 24 61

Connect Online at www.originenergy.com.au

The hot water supplied to your apartment is generated through a Centralised Gas Boiler system. To connect your gas, register online and provide your details for accounts & billing. Gas is individually metered to your apartment.

By connecting your gas with Origin, you will receive competitive rates.

→ Water

13 44 99

Access your account at www.gww.com.au

As a renter or owner moving into a new property, you don't need to do anything to set up your account.

For renters, your rental provider or property manager is responsible for supplying your details, and Greater Western Water will set up the account for you. You'll receive your first bill about three months after you move in. All new customers receive e-bills.

→ Internet

The building has no embedded network for an Internet Service Provider.

You are free to choose your own Internet Service Provider at your discretion. Dux Apartments is configured and ready for NBN services.
